

NOTICE TO BUYER OF OUTDOOR WOOD BOILER*

(For Phase I boilers only)

This Notice is required by Section 5-204 of the Vermont Air Pollution Control Regulations. This Notice must be signed and dated by the buyer or lessee prior to the sale or lease of any outdoor wood boiler to be installed in the State of Vermont.

Phase I Outdoor Wood Boiler to be purchased or leased:	MANUFACTURER: _____
	MODEL NUMBER: _____
	SERIAL NUMBER: _____

NOTICE (please read the following information carefully):

The following requirements apply to all Phase I outdoor wood boilers sold or leased after October 1, 2009, but before March 31, 2010, for installation in Vermont.

1. Only untreated natural wood, untreated wood pellets or other biomass may be burned in outdoor wood boilers approved for such fuels. It is illegal to burn: plywood, particle board and similar wood products; wood that is pressure-treated or treated with any preservative, herbicide, pesticide, adhesive, stain, paint, oil or other chemical or coating; refuse, garbage or any non wood materials. Home heating oil or gas may be burned in outdoor wood boilers as a starter or supplemental fuel only.
2. The Phase I outdoor wood boiler must be located more than 200 feet from any residence, other than a residence served by the boiler or owned by the buyer/lessee.
3. Use of an outdoor wood boiler that meets the distance requirement is not appropriate in some areas due to terrain that could render the operation of an outdoor wood boiler to be a nuisance or a public health hazard. Consider your neighbors when installing the boiler.
4. The outdoor wood boiler must be operated according to the manufacturer's operating and maintenance instructions.

A full copy of regulation Section 5-204 and other information can be found at <http://www.anr.state.vt.us/air> or by contacting the Air Pollution Control Division at the address below or by phone at (888) 520-4879.

Buyer/Lessee
